

The Bison 50

Independence made easy at a price you can afford

The Bison 50 is unrivalled in its choice of models and options to suit a variety of individual needs and circumstances.

We have developed the Bison 50 specifically for you.

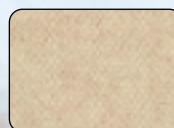

Functional and reliable with an affordable price. The Bison 50 is all this and more.

Enjoy the benefit of the high standards and build quality that goes into every Bison stairlift.

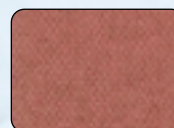

The Bison 50 has a built-in soft start and stop facility to give you a smooth and comfortable ride quality. The integral high power rechargeable battery pack will ensure your stairlift is always available for use, even in the event of a mains power failure.

Let the Bison 50 reinstate your freedom and independence at home.

Comfort and convenience

Easy use control

Simple to use rocker switch for finger light control.

Remote control

Wireless wall mounted or hand held remotes can be used to call and park the lift.

Swivel seat

Standard manual swivel seat makes alighting safe and straightforward. A fully powered swivel seat is an available option.

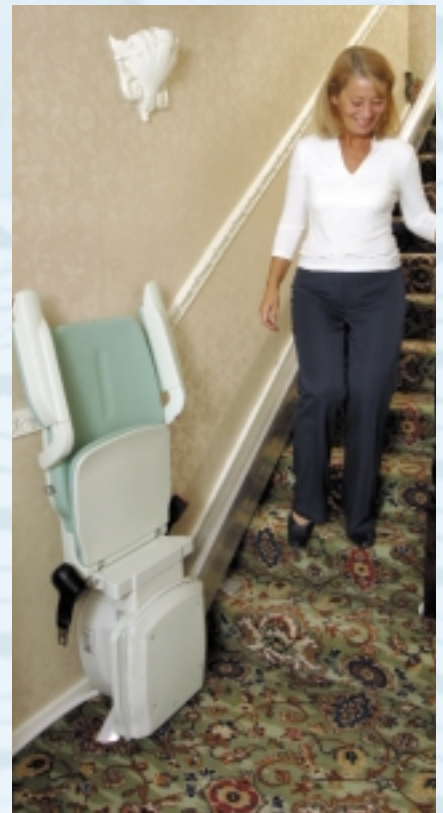

Height adjustment

A range of seat spacers enables us to provide a stairlift that is customised to suit your height.

Safe access

Footrest stops level with top of stairs for a level and secure access to the landing

Space saver

The space saver seat - allows up to 60mm (2.4") of additional clearance for the client on narrow staircases.

Slimline

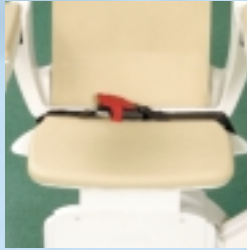

When not in use and folded away, our stairlifts, with their slim profile design, do not obstruct the stairway for use by other members of the family.

Safe and reliable

Seat belts

A variety of seatbelt options are available to best suit your individual requirements

Aircraft style quick release belt.

Car style button belt.

Reel style belts.

Your first choice for:-
