*Battery-Powered
Stairlifts*

Affordable

Adjustable

The Electra-Ride LT Straight-Rail Stairlift makes going up & down the stairs a pleasure!

Safety

You will be totally at ease on your Electra-Ride LT. When traveling on the stairs, the LT will sense any obstacles and automatically stop. Plus, when you're ready to get off the unit upstairs, the seat easily swivels so you face the hall. The Electra-Ride LT meets all ANSI A-18.1 residential requirements.

Affordable

The Electra-Ride LT offers a long list of standard features at a price that will please the budget-minded customer. The LT features the same quality and durability built into our other stairlifts and includes hallmark features such as battery operation and rack and pinion drive.

Quiet & Smooth Operation

The rack and pinion drive system provides a smooth ride. The Electra-Ride LT's battery-powered system runs exceptionally quiet in your home.

Compact

Your guests will get up and down the stairs with ease after the unit is installed. The seat and arms of the carriage flip up and out of the way when the unit is not in use.

The arms, seat and footrest flip up, creating plenty of space for guests to walk up the stairs.

The Electra-Ride LT's rack and pinion drive system provides a smooth ride, without hesitation, when the unit stops and starts.

BRUNO
Electra-Ride™ LT

Impact ♦ Safe

Affordable

You don't have to be limited by stairs anymore, so enjoy the home you love, upstairs and down!

Rugged

"LT" does not mean light duty! The Electra-Ride LT features a rugged, all-steel design for maximum durability and extended life. Plus, the LT seat has flip-up, durable, sturdy arms which make getting on/off a breeze!

Battery Powered

The Electra-Ride LT uses two, 12-volt batteries that are continuously charged by an integrated, state-of-the-art battery charger. The power supply is plugged into a standard household outlet at either the top or bottom of the stairway.

Bruno's leading-edge technology assures you access up and down the stairway *even* if the electrical service in your home is interrupted.

The rocker switch control is conveniently located at the end of the arm rest. The footplate and carriage safety sensors safely stop you, *even* if the slightest obstacle is in the way while you ride!

The two wireless call/send controls make installation simple and clean with no wires running along the wall.

Electra-Ride™ LT SRE-2700 Specifications

Exceptional Value

- ♦ Locking swivel seat at the top and bottom of the stairway.
- ♦ Two remote, wireless call/send controls.
- ♦ Generous seat size (19" between the arms).
